**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

**Categories:** Utilities

Hi Cathryn,

Christine (Kim) Gonzalez is currently out of the office for a few weeks, therefore I am sending this email on her behalf.

On September 23, 2020 the department received your application for coverage under the Construction Storm Water General Permit (WPDES #WI-S067831-5). The department is in the process of drafting an Environmental Impact Statement (EIS) for the proposed Enbridge Line 5 Wisconsin Segment Relocation project, and the storm water permit application has been placed on hold because it cannot be fully evaluated until after the EIS process has been completed.

While the application is on hold, the department will review the application materials provided and may request additional information necessary to determine project compliance. The department will notify you in writing of any additional information required.

Pursuant to s. NR 216.44(1) Wisconsin Administrative Code, the department is providing notice that the application has been placed on hold to allow time for application review and to finalize the EIS.

Thanks,

**Lindsay Tekler**
